6. PORTFOLIOS

The PROVEN NON-DIVERSIFIED FUND is comprised of two (2) portfolios:

- i. PROVEN High Yield (JMD) – Class B units
- ii. PROVEN Real Estate (JMD)- Class B units

7. INITIAL ISSUE PRICE

The Initial Issue Price for the **PROVEN NON-DIVERSIFIED FUND** is [JA\$100.00] per unit for each portfolio.

8. BUYING AND SELLING UNITS

Before purchasing Units in a Portfolio, it is important to read this Offering Circular in its entirety. If you require

further explanation on any aspect of this Offering Circular, please contact the office of the Manager or your financial advisor.

Units may be bought or sold on any business day at the prevailing Net Asset Value price, subject to the minimum holding period as the Manager may determine. The Net Asset Value (or NAV) is the total value of the fund's assets less the total value of its liabilities. The NAV represents the per unit price of the fund on a specific date or time.

Units in the Portfolios are distributed through PROVEN Wealth Limited distribution channels and any other authorized securities dealers that may be appointed for that purpose by PROVEN Wealth Limited from time to time. Clients may complete a Unit Trust Instruction form and email or fax it to the Manager once an email/fax indemnity is in place or submit original Unit Trust Instruction forms bearing the signature of the intended Unit Holder (or their duly authorized agent) to the Manager for subscription/redemption of Units.

Orders for purchases or redemption of units must be received by the Manager no later than 1:00 pm local time on a business day (or such earlier time as may be specified by the Manager) in order to be processed based on the Net Asset Value (NAV) calculated on the previous day. Otherwise, the order will be processed based on the applicable NAV per unit of the current business day. The Manager will seek to make payment within five (5) business days of the day on which the Units were redeemed for the Proven High Yield Portfolio and one hundred and eighty (180) days for the Proven Real Estate Portfolio, provided that the necessary documentation has been received.

The Manager reserves the right to accept or reject any application to purchase units, within five (5) days after

receipt of the application. If an application is rejected, all monies received with the application will be returned without interest within five (5) days of receipt of the application.

In the event that the purchase of units is made with a cheque, the Manager may require a minimum waiting period, comparable with that set by commercial banks in Jamaica, to allow the cheque to clear. If a cheque is dishonoured by the bank, the Manager reserves the right to cancel the unit holdings of the applicant after reasonable efforts have been made to secure the replacement of funds.

Note that the Manager may suspend the payment of any realization price for a period of up to three months from the date of receipt of a realization or redemption notice if in the Manager's determination it is prudent to suspend such a payment.

9. VALUING AND PRICE QUOTATIONS OF UNITS

The Funds' investments are carried at fair value. Quoted equities are valued at the closing bid price on the stock exchange of the market of issue or such other stock exchange, as the Manager may decide. The prices for other asset classes are based on the prices prevailing at the close of business in the markets in which such assets are traded. Real estate is valued at least every three years by a qualified valuator. Unit prices are valued each business day and will be published on the website of Proven Wealth Limited (www.provenwealth.com). The unit price will be published in either the daily Gleaner or the daily Observer or both every Wednesday and Friday. Prices will be guaranteed until 1p.m. each business day.

The daily NAV of each Portfolio will be determined by using the fair value of the underlying investments and

reducing such value by the fair value of the total liabilities for that Portfolio (such as, an appropriate provision for fiscal and purchase/sales charges, loading charges (if applicable) together with any taxes which may be levied or imposed by the Government).

The purchase price of units is determined by dividing the NAV of the respective Portfolio by the number of units in issue of that Portfolio.

The redemption price at which the unit holder sells units back to the Managers is determined by dividing the NAV of the respective Portfolio by the number of units in issue of that Portfolio.

On each business day a separate NAV for each portfolio will be determined and such determination will be subject always to accounting standards used in Jamaica.

The Net Asset Value of units in a portfolio is calculated after the close of business on each business day.

10. OTHER VALUATION DISCLOSURES

Value of Units may vary:

Unit Trusts own different types of investments, depending on their investment objectives. The value of these investments may change from day to day, reflecting changes in interest rates, economic conditions and company news. As a result of these changes, the value of the Fund's securities may go up or down and the value of your investment in the fund, when you redeem it, may be more or less than when you purchased it. The full amount of your investment is not guaranteed.

11. MINIMUM INVESTMENTS, FEES & CHARGES, HOLDING PERIOD

Units may be bought or sold on any Business Day at the prevailing net asset value price, subject to minimum holding periods as the Manager may determine.

The initial minimum dollar value of units that can be purchased for the portfolios of the PROVEN Non-Diversified FUND are outlined below:

	INITIAL INVESTMENT	SUBSEQUENT INVESTMENT	HOLDING PERIOD	CURRENCY
PROVEN High Yield	J\$200,000	J\$50,000	180 DAYS	JMD
PROVEN Real Estate	J\$500,000	J\$100,000	1 year	JMD

The Manager will receive income based on:

- A)** Preliminary charges not exceeding 4.00% of the net asset value.
- B)** Management fee not exceeding 2% per annum of the value of investments in the Portfolio. Periodic fees will be accrued daily and paid on a monthly basis.
- C)** Early redemption charge not exceeding 4.00% of the value of the amount invested by the Unit Holder in the Portfolio.
- D)** Any applicable charges for exiting the fund.

The Management fees will be treated as expenses of the Fund and will be accrued daily and paid on a monthly basis. Preliminary charges and early redemption charges shall be payable by unit holders.

Please note that the Manager has, within the limits prescribed in the Trust Deed, the discretion to change fee amounts set out in this section from time to time. Any change in the fee structure outlined above will be subject to the Manager providing written notice, by publication on the website of Proven Wealth Limited or by mail. Such notice should be published at least one (1) month prior to the effective date of the change.

12. REDEMPTION OF UNITS

When the Unit Holder wishes to encash units (i.e. when a Unit Holder sells units to the Manager) he/she will be required to complete a request signed by all joint holders and return with his or her Certificate(s), if any, to the offices of the Manager or Selling Agent. Provisions have been made where joint holders in writing to the Trustee may authorize any one of their number to request and effect a realization of Units or where joint holders may sign several counterparts of the request and send to the Manager or Selling Agent by electronic means, including e-mail or fax.

No money should be paid to any person in Jamaica to acquire units unless that person is licensed or registered as a dealer under the Securities Act.

13. PROVEN NON-DIVERSIFIED FUND PORTFOLIOS

PROVEN High-Yield Portfolio (JMD)

This portfolio will invest in mainly fixed income securities with a target average portfolio duration less than fifteen (15) years.

a. INVESTMENT OBJECTIVE

The portfolio's objective will be investment in a wide cross section of fixed income securities, primarily medium to long term private placements and other illiquid bonds

to give clients an above average risk adjusted return on their investment.

b. INVESTMENT STRATEGY

The portfolio will aim to invest in undervalued JMD fixed income instruments issued by governments or corporate entities that will give an above average total return over the medium to long term. The portfolio may also participate in preference shares from time to time which provides an attractive yield. The Manager may also, from time to time, hold cash or cash equivalent positions if it is deemed desirable to reduce market risk and volatility in the portfolio.

The portfolio may also invest in non-JMD denominated fixed-income investments subject to the investment restrictions imposed under the Bank of Jamaica Act. These include investment grade sovereign obligations, investment grade corporate obligations of entities incorporated outside of Jamaica as well as preferred stocks and common stocks that provide a high dividend yield.

PROVEN Real Estate Portfolio (JMD)

This portfolio will invest mainly in various real estate related assets across property types and locations in Jamaica.

a. INVESTMENT OBJECTIVE

The Portfolio's objective is to achieve investment returns in excess of the Jamaica Inflation Rate.

b. INVESTMENT STRATEGY

The Portfolio will invest in various types of real estate properties, real estate unit trusts, REITS, and other investments permitted by

the Financial Services Commission.
Investments will be made in Jamaica.

Use of derivatives and structured products

The Manager may choose to use derivatives such as options and forward contracts in the Non-Diversified Fund in three ways:

- To hedge against losses from movements in stock markets, currency exchange rates or interest rates;
- To gain indirect exposure to individual securities or markets instead of buying the securities directly;
- To seek to generate additional income.

The Fund may divert from the stated investment objectives during times of heightened risk and extreme volatility. In these instances, the manager will switch the focus of the Fund from capital appreciation to capital preservation with the aim of reverting to the original objectives once the outlook has improved.

14. BORROWING

The Manager is allowed to borrow money in an amount up to 10% of the aggregate market value of the Fund's assets for a period not exceeding twelve (12) months.

15. RISK EXPOSURE

By its nature, the Fund's activities are principally related to the use of financial instruments, and the Manager aims to achieve an appropriate balance between risk and return and minimize potential adverse effects on the Fund's financial performance. The Manager's risk management policies are designed to identify and analyze these risks, to set appropriate risk limits and

controls, and to monitor the risks and adherence to limits by means of reliable and up-to-date information systems.

The list below outlines the key risks that Unit Holders should be aware of, which includes, but is not limited to the following:

Credit Risk

Credit risk is the risk of default by an obligor. This risk is managed primarily by reviews of the financial status of each obligor. Credit risk may be disaggregated into three (3) types of risk:

1. **Liquidity Risk** – Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations from its financial liabilities. Liquidity risk may result from an inability to sell a financial asset quickly at, or close to, its fair value.
2. **Market Risk** – Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to the individual security or its issuer, and/or micro- or macro-economic factors affecting securities traded in the market.
3. **Currency Risk** – currency risk is the risk that the market value of, or the cash flows from, financial instruments will vary because of exchange rate fluctuations.

Interest Rate Risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. Floating rate instruments expose the Fund to cash flow interest risk, whereas fixed interest rate instruments expose the Fund to fair value interest risk.

Operational Risk

Operational Risk is the risk arising from execution of the Company's business functions and in particular the risk of loss resulting from inadequate or failed internal processes, systems, personnel loss or error, or from external events

The PROVEN Real Estate and the Proven High Yield Portfolio reserve the right to distribute the income attributable to the portfolio. Neither the Trustee nor the Manager, however, gives any warranty or undertaking that there will be any distribution of income at any time. It is important to note, that in practice, the PROVEN Non-Diversified Portfolios do not distribute its income but rather reinvests it, and the Unit Holders enjoy the benefit of this reinvestment through accretions in the price of their units.

The Manager of the Fund is licensed by the Financial Services Commission as a Securities Dealer, as a result the manager and/ or its associates or affiliates may hold positions in the Fund as well as the Fund may hold positions in assets sold or owned by the manager and/ or its associates or affiliates. In any event these transactions will be executed at fair value and at arm's length.

- (i) In any event of termination above, the Manager shall give notice of the termination to all Unit Holders, as the case may be, and to the Commission.

- (ii) From the date of termination fixed by the Manager in consensus with the Trustee, the right of Unit Holders with respect to redemption shall cease.

28. SPECIAL TAX CONCESSIONS

Unit Holders benefit from the following tax concessions:

- a) The income received by Trustee is received without deduction of tax. While the distribution of income by the Trustee to the Unit Holders would be subject to income tax, however, as long as the Manager reinvests such income the Unit Holders enjoy the benefit of this reinvestment through accretions in the price of their units. When units are encashed or redeemed by a Unit Holder, the accretion realized by the Unit Holder is subject to withholding tax at the applicable rate under the Income Tax Act.
- b) Unit Holders pay no Stamp Duty or Transfer Tax or Capital Gains Tax on encashment, disposal or redemption of their units.
