The **PROVEN SELECT FUND** may be comprised of one or more portfolios and/or class or classes of portfolios in any currency. The Manager has the discretion to establish further portfolios and classes of units within such portfolios subject to the applicable law and any required approval, regulatory or otherwise:

The PROVEN SELECT FUND is comprised of four (4) Portfolios –

- i. PROVEN Select Money Market (JMD)
- ii. PROVEN Select Money Market (USD)
- iii. PROVEN Select Fixed Income (USD)
- iv. PROVEN Select Equity (JMD)

7. INITIAL ISSUE PRICE

The Initial Issue Price for the portfolios under the **PROVEN SELECT FUND** was JA\$1.00 per unit for portfolios whose base currency was Jamaican Dollars and US\$1.00 per unit for portfolios whose base currency is United States Dollars.

8. BUYING AND SELLING UNITS

Before purchasing units in a Portfolio, it is important to read this Offering Circular in its entirety. If you require further explanation on any aspect of this Offering Circular, please contact the office of the Manager or your financial advisor.

Units may be bought or sold on any business day at the prevailing offer and bid prices, subject to the minimum holding period as the Manager may determine. The "ask" or "offer" or "issue" price (also called the purchase price) is the price at which the Manager will sell units to the public on a business day and are subject to the current selling and buying

prices of the investments in the Funds. The “bid” or “purchase” price or “realization” price is the price at which the Manager will repurchase units from the unit Holders and are subject to the current selling and buying prices of the investments in the Portfolios.

Units in the Portfolios are distributed through PROVEN Wealth Limited’s distribution channels and any other authorized securities dealers that may be appointed for that purpose by PROVEN Wealth Limited from time to time. Clients may complete a Unit Trust Instruction form and email or fax it to the Manager once an email/fax indemnity is in place or submit original Unit Trust Instruction forms bearing the signature of the intended unit holder (or their duly authorized agent) to the Manager for subscription/redemption of units.

Orders for purchases or redemption of units must be received by the Manager no later than 1:00 pm local time on a business day (or such earlier time as may be specified by the Manager) in order to be processed based on the Net Asset Value (NAV) calculated on the previous day. Otherwise, the order will be processed based on the applicable NAV per unit of the current business day. The Manager will seek to make payment within three (3) business days of the day on which the units were redeemed provided that the necessary documentation has been received.

The Manager reserves the right to accept or reject any application to purchase units, within five (5) days after receipt of the application. If an application is rejected, all monies received with the application will be returned without interest within five (5) days of receipt of the application.

In the event that the purchase of units is made with a cheque, the Manager may require a minimum waiting period, comparable with that set by commercial banks in Jamaica, to allow the cheque to clear. If a cheque is dishonoured by the bank, the Manager reserves the right to cancel the unit holdings of the applicant after reasonable efforts have been made to secure the replacement of funds.

Note that the Manager may suspend the payment of any realization price for a period of up to three months from the date of receipt of a realization or redemption notice if in the Manager's determination it is prudent to suspend such a payment.

9. VALUING AND PRICE QUOTATIONS OF UNITS

The Funds' investments are carried at fair market value. Quoted equities are valued at the closing bid price on the Stock Exchange of the market. Foreign currency-denominated assets are converted at the mid- point of the Bank of Jamaica's weighted average selling and buying rates. The prices for other asset classes are based on the prices prevailing at the close of business in the markets in which such assets are traded. Unit prices are valued each business day and will be published on the website of Proven Wealth Limited (www.provenwealth.com) The bid and ask prices will be published in either the Gleaner or the Daily Observer or both every Wednesday and Friday. Prices will be guaranteed until 1p.m. each business day.

The daily NAV of each Portfolio will be determined by using the fair value of the underlying investments and

reducing such value by the fair value of the total liabilities for that Portfolio (such as, an appropriate provision for fiscal and purchase/sales charges,

loading charges (if applicable) together with any taxes which may be levied or imposed by the Government).

The purchase price of units is determined by dividing the NAV of the respective Portfolio by the number of units in issue of that Portfolio.

The "Bid" price of units (the redemption price at which the unit holder sells units back to the Managers) is determined by dividing the NAV of the respective Portfolio by the number of units in issue of that Portfolio.

On each business day a separate NAV for each portfolio will be determined and such determination will be subject always to accounting standards used in Jamaica.

The Net Asset Value of units in a portfolio is calculated after the close of business on each business day.

10. OTHER VALUATION DISCLOSURES

Value of units may vary:

Unit Trust portfolios own different types of investments, depending on their investment objectives. The value of these investments may change from day to day, reflecting changes in interest rates, economic conditions and company news. As a result of these changes, the value of the Fund's securities may go up or down and the value of your investment in the fund, when you redeem it, may be more or less than when you purchased it. The full amount of your investment is not guaranteed.

11. MINIMUM INVESTMENTS, FEES & CHARGES, HOLDING PERIOD

Units may be bought or sold on any Business Day at the prevailing offer and bid prices respectively, subject to minimum holding periods as the Manager may determine. The "ask" or "offer" or "issue" price and the "bid" or "purchase" or "realization" price are based on the current selling and buying prices of the investments in the PROVEN SELECT FUND.

The initial minimum dollar value of units that can be purchased for the portfolios of the PROVEN SELECT FUND are outlined below:

- B)** Management fee not exceeding 1.75% per annum of the value of investments in the Portfolio. Fees will be accrued daily and paid on a monthly basis.
- C)** Early redemption charge not exceeding 4.00% of the value of the amount invested by the unit holder in the Portfolio.
- D)** Any applicable charges for exiting the fund.

The Management fees will be treated as expenses of the Fund and will be accrued daily and paid on a monthly basis. Preliminary charges and early redemption charges shall be payable by unit holders.

Please note that the Manager has, within the limits prescribed in the Trust Deed, the discretion to change fee amounts set out in this section from time to time. Any change in the fees outlined above will be subject to the Manager providing written notice, by publication on the website of Proven Wealth Limited or by mail. Such notice should be published at least one (1) month prior to the effective date of the change.

12. REDEMPTION OF UNITS

When the Unit Holder wishes to encash units (i.e. when a Unit Holder sells units to the Managers) he/she will be required to complete a request signed by all joint holders and return with his or her Certificate(s), if any, to the offices of the Managers or Selling Agent. Provisions have been made where joint holders in writing to the Trustee may authorize any one of their number to request and effect a realization of units or where joint holders may sign several counterparts of the request and send to the Managers or Selling Agent by electronic means, including e-mail or fax.

mitigate the risk of the investments in the Portfolios and has outlined the following guidelines for the Portfolios' management, which include, but are not limited to the following:

REBALANCING

Over time, the value of the assets within the Portfolios will change and possibly result in the need for portfolio rebalancing to safeguard it from being overly exposed to undesirable risks. The primary goal of a rebalancing strategy is to minimize risk relative to a target asset allocation, rather than to maximize returns. There will be periodic deviations in actual asset weights from the long-term/current policy asset weights specified above. Causes for periodic deviations are market movements, cash flows, and varying portfolio performance. The Manager will assess the portfolio composition at least annually and make adjustments where necessary to bring the portfolio in line with target asset allocation. The rebalancing program may be delayed if it is believed to be in the best interest of the portfolio.

The Portfolios above will also comply with the following restrictions outlined in the Securities (Amendment) Act 2013:

- No more than 15% of the Fund's assets can be invested in illiquid assets. According to the regulations an illiquid asset means, a portfolio asset that cannot be readily disposed of through market facilities on which public quotations in common use are widely available at an amount that at least approximates the amount at which the portfolio asset is valued in calculating the net asset value per security of the collective investment scheme concerned.

- No more than 10% of the Fund's net assets shall consist of securities from one issuer, except in the case of securities issued by any entity with an investment grade credit rating, Government of Jamaica or the Central Bank of Jamaica.

Any other restrictions imposed by the Financial Services Commission (FSC).

The Manager is allowed to borrow money in an amount up to 10% of the aggregate market value of the Fund's assets for a period not exceeding twelve (12) months.

16. RISK EXPOSURE

By its nature, the Funds' activities are principally related to the use of financial instruments, and the Manager aims to achieve an appropriate balance between risk and return and minimize potential adverse effects on the Funds' financial performance. The Manager's risk management policies are designed to identify and analyze these risks, to set appropriate risk limits and controls, and to monitor the risks and adherence to limits by means of reliable and up-to-date information systems.

The list below outlines the key risks that unit holders should be aware of, which includes, but is not limited to the following:

Credit Risk

Credit risk is the risk of default by an obligor. This risk is managed primarily by reviews of the financial status of each obligor. Credit risk may be

disaggregated into three (3) types of risk:

- Credit Default Risk
- Concentration Risk
- Country Risk

Liquidity Risk

Liquidity risk is the risk that the Funds will encounter difficulty in meeting obligations from their financial liabilities. Liquidity risk may result from an inability to sell a financial asset quickly at, or close to, its fair value.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to the individual security or its issuer, and/or micro- or macro-economic factors affecting securities traded in the market.
